

*REMARKS/ARGUMENTS*

In response to the "Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures," the sequence listing has been amended to correct an error in the description of SEQ ID NO: 28. The specification has been amended to include the replacement sequence listing that corrects the error in the description. Additionally, the section of the specification entitled "Incorporation-by-Reference of Electronically Filed Material" has been amended to include the features of the replacement sequence listing. The amendment to the sequence listing is supported by the specification at, for example, page 13, paragraph 0042. No new matter has been added by way of these amendments.

Applicants respectfully submit that the patent application is in condition for allowance. If, in the opinion of the Examiner, a telephone conference would expedite the prosecution of the subject application, the Examiner is invited to call the undersigned attorney.

Respectfully submitted,

John L. Gase, Reg. No. 47,590
